ABOUT US

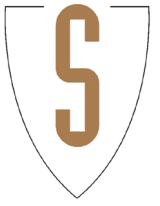

100 YEARS OF EXCELLENCE IN RECOGNITION

Strath Craft Awards was founded in 1918 to produce memorial plaques in honour of Canadian soldiers who lost their lives during the first World War. Over the subsequent 100 years, we have grown from a small business to a large production facility and a leader in the awards and recognition industry.

At Strath Craft, we understand the importance of tradition as well as the need for innovation and growth. While we continue to produce cast metal products by hand to ensure exceptional, artisanal quality, we have also invested in new technologies to help evolve our product line and improve our production abilities.

Today we are equipped with a foundry capable of producing sand and centrifugally cast metal works, a graphic design and engraving department to assist with custom artwork and personalization, a skilled mould making team, and an electroplating line capable of providing a variety of metal finishes. While we offer imported options, most of our metal products continue to be handmade onsite to ensure the highest quality possible for our customers.

Experience the Strath Craft advantage every time you place an order with us! We provide our customers with gold medal service, ensuring that every piece is crafted with pride and care so that it can be a cherished keepsake for years to come.

PRODUCTION

PROCESSES & FACILITIES

MOULD MAKING

Our skilled mould makers use plastic representations of the final design to create rubber moulds for centrifugal casting.

CENTRIFUGAL CASTING

A rubber mould is secured into a "centrifugal casting" machine, named for its use of centrifugal force (spinning) to spread molten metal into each casting cavity in the rubber mould.

KNIFING & BUFFING

After the castings have had time to cool and harden, each piece is hand buffed and quality checked to ensure all rough edges are removed and that the piece is ready for electroplating.

ELECTROPLATING

We use a process called electroplating to finish our castings. This process uses an electrical current to allow castings to be plated in a variety of finishes.

PAINTING

Once the castings have been finished, we paint each piece using a "colour fill" process where enamel is set into the recessed areas by hand.

SAND CASTING

Each letter is placed by hand to create a "pattern" which is set in sand to create a mould which we use to cast the final product.

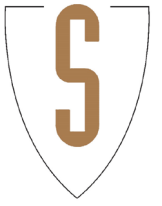

PALETTE

STOCK PANTONE SHADES

Take the guess work out of colour matching by choosing from our selection of stock pantone shades. If you don't see the colour you're looking for, we also offer best visual colour matching for customer samples and other pantone shades. Custom paint mixing is also available at an additional cost.

FINISH OPTIONS

SELECT THE FINISH OPTION THAT IS RIGHT FOR YOU!

We deliver quality products using only the finest base materials and finishing techniques. Attention to detail and customer care is the hallmark of our business, and helping you select the right combination of materials for your project is our specialty.

GENERAL INFORMATION

TERMS & SERVICES

ARTWORK APPROVAL

An artist's proof will be forwarded for approval prior to production. Customers must review and approve artwork in writing before production proceeds on an order. Delivery dates may be extended based on late receipt of artwork approval.

ARTWORK SUBMISSION

To minimize art charges, customers should supply "production ready artwork" at the time of order submission. Artwork should be submitted in Vector format for PC with all components converted to curves or outlines. Preferred file extensions are: CDR, EPS, AI or PDF.

CANCELLATIONS

Any cancellations on orders will be subject to all production costs incurred to date.

CHANGES TO ARTWORK

All art charges are cumulative from time of submission. Any changes or alterations to artwork after submission will be subject to additional charges.

COLOUR MATCH

Colour match for enameling is a visual "as close as possible" to samples provided or Pantone numbers. Additional charges may occur for custom colour mixing.

CUSTOMER SAMPLES

We cannot guarantee the return or condition of customer's samples submitted with an order.

DELIVERY TIME

Initial orders requiring artwork and approval generally require 3-5 weeks. Repeat orders, not requiring new artwork, generally require 2-4 weeks.

ENGRAVING

All text for engraving must be submitted electronically, via email or in an attached file. Pricing includes inscriptions unless otherwise noted. To avoid transcription errors, we do not accept engraving, personalization, or inscription information over the telephone.

FINISHES

Cast metal items are available in fine pewter and base metal electroplated in antique brass, silver & copper finishes as well as bright gold, nickel and copper. Gold tone and silver tone refer only to the colour of the inscription plate not the substrate. Solid brass and brass are deemed to be the same.

LESS THAN MINIMUM ORDERS

Orders for less than minimum quantities are available in some cases but extra charges may be incurred. Please contact customer service for details.

ORDER APPROVAL

An order approval will be emailed for your review and approval prior to production. If no response is received within 24 hours, we will consider approval as sent, and production will begin on your order.

OVERRUNS & UNDERRUNS

We endeavor to ship exact quantities as ordered, but in accordance with industry practice, a 5% over or under run constitutes completion of an order and is invoiced accordingly.

PACKAGING

Pricing includes bulk or individually poly bagging. Packaging preferences should be indicated at the time of ordering. Additional packaging options are available for some products at an additional cost.

PAYMENT TERMS

We reserve the right to request 50% deposit on any order based on degree of customization required. Upon approved credit, net 30 days may be extended upon sales target agreements. We accept VISA, M/C, and electronic transfer as methods of payment.

PRODUCTION SAMPLES - PROTOTYPES

Prototypes are available on most cast items at \$100.00 (G) plus artwork and any special charges such as sculpting. The \$100.00 (G) charge will be credited in full upon receipt of an exact repeat (without any changes) on a production run of 250 units or greater.

PRICING

Prices shown in the price list are current and in Canadian funds. Prices may be subject to change without notice. Pricing for cast products is based on a standard 2D design. Prices do not include artwork, freight, or applicable taxes.

PROPRIETARY RIGHTS

All dies, moulds, film etc. are proprietary and are for the exclusive use of the original customer. All dies, moulds etc. are retained for 5 years. After 5 years, inactive dies, moulds etc. may be destroyed and repeat orders subject to new art and setup charges.

QUANTITIES NOT LISTED

Orders for larger or smaller quantities than listed require a special quotation. Please contact customer service for details.

REPEAT ORDERS

Please reference a previous PO, invoice, or design number when submitting repeat orders.

RETURNS

All goods must be inspected upon receipt. A factory authorization number must be obtained from customer service prior to the return of any merchandise regardless of the reason. Authorization will not be approved if 10 business days have passed since receipt of goods.

RIGHT TO PROMOTE

We reserve the right to use any products in our promotional materials, displays or electronic marketing unless otherwise informed in writing at the time of the order. All logos, designs, insignia, trademarks etc., shown are shown for illustration purposes only and are not for resale, nor are they to be construed as product or brand endorsement by or for the trademark owner.

RUSH ORDERS

Rush service is available on most products but must be approved by our production facility at the time of order submission and may be subject to additional charges.

SHIPPING

Unless specified, goods will be shipped by the most appropriate method based on weight, destination and time available, F.O.B. our manufacturing plant in London. In the case of goods damaged in transit, it is the responsibility of the customer to claim with the carrier. Please keep all packaging for their inquiry.

SPECIAL PROJECTS

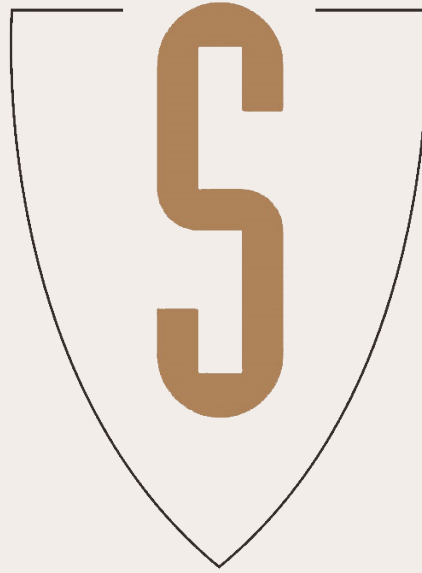

We are happy to accommodate special/custom projects. Please contact customer service for a special quotation.

TRADEMARKS & COPYRIGHTS

All designs submitted and approved by our customers are deemed to be in full compliance with all existing laws of trademark, copyright, patent registration, and privacy regulations at time of submission. The customer in submitting these designs takes full responsibility for all of these issues. The customer assumes all liability resulting from any action or demands brought forward in a trademark, copyright, registration marks or patent infringement or dispute.

VARIATIONS

The actual sizes of products pictured in this catalogue may be larger or smaller than illustrated. The measurements given are approximate and slight variations are normal. Some products will show slight imperfections that are inherent in natural products such as wood. Colours and finishes can vary slightly in appearance from the catalogue picture due to changes in suppliers and availability and does not alter the overall quality of the item.
